Since 1919, Gair, Gair, Conason, Rubinowitz, Bloom, Hershenhorn, Seigman & Mackauf has staked its superior reputation on its dedication, sensitivity, and commitment to personal service. Based in Manhattan but handling cases throughout New York and New Jersey, the firm specializes in the most serious and significant personal injury, wrongful death, and general negligence cases. These range from construction site injuries and automobile accidents to medical malpractice and complex products liability claims. Its national reputation as "counsel to the profession" makes the firm a top choice of fellow members of the bar seeking the best representation possible for those they refer.

In order to maintain the highest standards of quality and service, GGCRBHS&M takes on only about 100 cases a year. This concentrated focus allows for the meticulous trial preparation such substantial cases require and ensures that tort victims receive full and just compensation for their damages. The firm has enjoyed a long and storied tradition of success for its clients.

From its inception, the firm has dedicated itself to personal service that is, simply put, unrivaled. The sum of the verdicts and settlements attorneys have obtained exceeds \$1.5 billion. Because the firm is selective in the cases accepted, GGCRBHS&M is able to immerse itself in those cases. "As a result, cases are resolved more quickly and with better results

than other plaintiff's personal injury firms," says Ben Rubinowitz, managing partner.

In the last 10 years alone, GGCRBHS&M's impressive record of accomplishment includes more than 365 cases resulting in verdicts or settlements exceeding \$1 million. In 2017 the firm obtained the top two auto accident verdicts in New York State. The first is a \$71 million verdict for a young woman who suffered a spinal injury in a car accident. The second, a \$41.5 million verdict for a worker who was fatally struck by a street sweeper, is one of the largest wrongful death awards in Queens County.

The firm is able to spend more resources than others can in order to secure the most knowledgeable experts and to get the best results for clients. Not only has

GGCRBHS&M obtained many significant results on behalf of clients, but it has set new marks for obtaining the very best results in the field.

"Specialized expertise, aggressive advocacy, and extensive case preparation are the principles upon which this firm was founded," says Rubinowitz. "Our extensive record of verdicts and settlements proves that these principles have allowed us to remain the best advocates in the industry."

This year, a total of nine lawyers were listed in *The Best Lawyers in America*®: Ben Rubinowitz, Jeffrey Bloom, Howard Hershenhorn, Anthony Gair, Richard Steigman, Christopher Donadio, Marjio Adimey, Stephen Mackauf, and Seymour Boyers.
